esys 40 is a portable 40 cell Braille display with integrated Braille keyboard. Multi functional and with ultimate design for desktop as well as portable use. Features a slot for mini SD-card to save text files on the go. Thanks to Bluetooth technology and communication software, it can also be connected to a mobile phone or PDA. You can use esys 40 to complete your IT equipment today! Its 10 key Braille keyboard, gives you the possibility to reproduce all the standard key combinations, both for typing and navigation, enabling you to fully navigate your personal computer, Windows application or your mobile phone and PDA. Use the two joysticks to easily control Microsoft Windows menus. Use the navigation wheels to faster browse through information.

Thanks to esys 40 auto sleep-mode, its battery life will allow you several days of autonomy.

Applications

**Notepad:** create, read and edit *.txt, read and edit *.brl or *.brf files. Use the “read only” function to read a book or larger documents. **Agenda:** set up and post meetings and check your planning using a weekly overview. **Alarm Clock:** set up different alarms for each day of the week. **Calculator:** execute simple calculations, perform value conversions and use memory functions. **Tools:** check the correct operation of your esys 40, customize user’s settings and update to latest firmware version.
